Who is NGT?

NGT is the largest provider of wholesale hosted and trunk-based VoIP solutions in the United States with over 100,000 seats under management.

2008 Availability Statistics

Call Processing Availability	99.994%
Web Interface Availability	99.997%
Voicemail Services Availability	100%

NGT delivers predictable business-class communications that consistently work and is a leader in the VoIP community processing more than 75 million minutes per month and supporting more than 15 thousand businesses.

What is Hosted Digital Voice?

Hosted Voice Over IP is a managed, feature-rich alternative to on-site PBXs or Key Systems where all feature functionality is deployed in the network rather than on premise
